Top management meeting at Vortex

Konolfingen/Nottingham, December 22nd, 2023: The top management of Vortex and Kern met on site in Nottingham at the end of the year.

The meeting focused on a review of the collaboration to date and an outlook for the 2024 financial year. The partners have big plans for the coming year: In particular, the aim is to drive forward sales of the proven high-performance inserting systems with all-round services.

The good order situation shows the trust and appreciation that Kern products and solutions enjoy in the worldwide market.

Vortex is already a trusted manufacturing supplier to Kern and boast extensive technical and industry knowledge. Thanks to the engagement of sales and technical support staff with many years of experience with Kern products, this will ensure the transition of services will be managed in a professional and efficient manner.

Stefan Wüthrich, CEO Kern group says: "We have been present in England for many decades, so I am pleased that this will also be the case in the future through our cooperation with Vortex. We look forward to the coming decades."
