

# Kern Single Sheet Feeder EFQR/L

## with Integrated Grouping and Folding Station

The Kern Single Sheet Feeder EFQR/L is an integrated input module that performs the functions of sheet separation, grouping and folding.

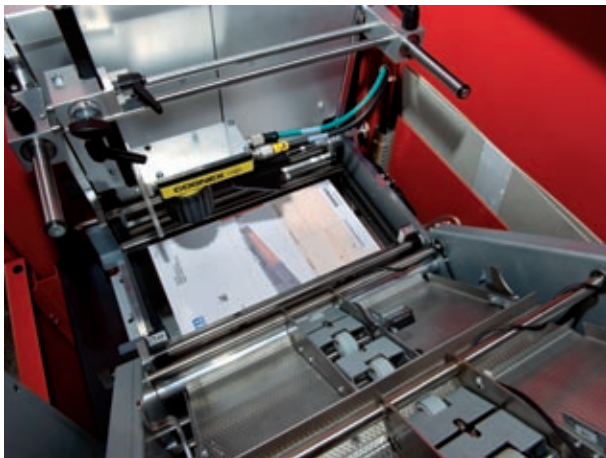

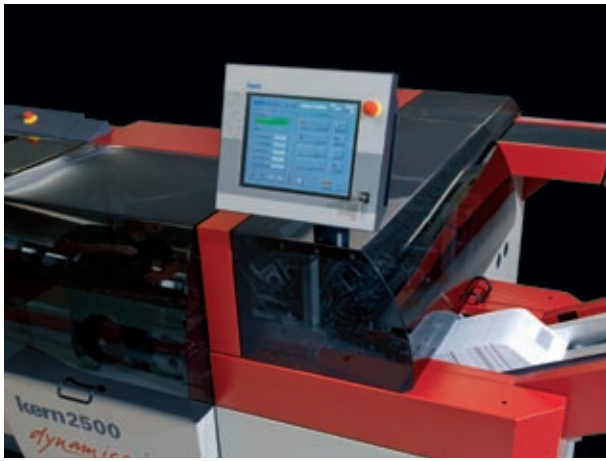

The module continues the successful tradition of Kern input modules. When collating groups consisting of two pages, this high-performance feeder can deliver up to 32,000 documents per hour. The EFQR/L offers unmatched operator comfort and is extremely maintenance friendly.

The Single Sheet Feeder EFQR/L can be set up quickly and easily when switching from one application to the next. The number of parameters requiring programming has been kept to an absolute minimum.

The EFQR/L is composed of state-of-the-art components. A large format touch screen with richly detailed graphical displays provides scenario-specific system information, thus allowing for easy operation without specialized knowledge.

The Single Sheet Feeder EFQR/L is designed for constant use. Its solid construction and the incorporation of latest generation servo technology translate into a long service life and a high level of availability.

The EFQR/L is fully ADF compatible. It is ready for integration with Kern's mail *Factory Suite*.

The Single Sheet Feeder EFQR/L is compatible with both the Kern 2500 and the Kern 2600.

The input module's high processing speed is put to excellent use in conjunction with either inserting system.

A large touch screen with ergonomic menu navigation makes for extremely user-friendly operation.

Live images on the touch screen facilitate the rapid adjustment of the reading system.

The EFQR/L is compatible with a broad range of readers. All industry-standard types of processing code – namely OMR, barcode, datamatrix and OCR – can be read anywhere on a document.

In addition, reading systems capable of scanning entire pages are available. Such systems can increase flexibility and reduce changeover times between jobs.

The standard configuration of the completely redesigned folding unit features four folding pockets and allows for unmatched versatility and easy adjustment.

Ease of operation, accessibility and maintenance friendliness are trademarks of the EFQR/L.

Throughput, 2 sheets per group:  
 32,000 documents per hour  
 Paper thickness: 60 -120 g/m<sup>2</sup>  
 Format range: Length: 279 - 318 mm  
 Width: 210 - 225 mm
